

**This is only a summary.** If you want more detail about your coverage and costs, you can get the complete terms in the Benefit Booklet at [www.ucop.edu/ucship](http://www.ucop.edu/ucship) or by calling 1-866-940-8306. Dependents are required to access care from network providers.

Important Questions	Answers	Why this Matters:
What is the overall <u>deductible</u> ?	For In-Network Providers: <b>\$400</b> /member Does not apply to In-Network Preventive Care or Prescription Drugs.	You must pay all the costs up to the <u>deductible</u> amount before this plan begins to pay for covered services you use. Check your Benefit Booklet to see when the <u>deductible</u> starts over. See the chart starting on page 3 for how much you pay for covered services after you meet the <u>deductible</u> .
Are there other <u>deductibles</u> for specific services?	No	-----None-----
Is there an <u>out-of-pocket limit</u> on my expenses?	Yes, In-Network Providers: <b>\$6,000</b> /member	The <u>out-of-pocket limit</u> is the most you could pay in coinsurance and copayments during a coverage period (usually 12 months) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the <u>out-of-pocket limit</u> ?	Balance-billed charges, health care premiums, and charges for services that are not covered by this plan.	Even though you pay these expenses, they don't count toward the <u>out-of-pocket limit</u> .
Is there an overall annual limit on what the plan pays?	No. This policy has no overall annual limit on the amount it will pay each year.	The chart starting on page 3 describes any limits on what the plan will pay for specific covered services.

Important Questions	Answers	Why this Matters:
Does this plan use a <u>network of providers</u> ?	Yes, See <a href="http://www.anthem.com/ca">www.anthem.com/ca</a> or call 1-866-940-8306 for a list of Participating providers.	If you use an In-Network doctor or <i>other health care provider</i> , this plan will pay some or all of the costs of covered services. If you obtain services at a UC Health System hospital or professional provider, you will receive a UC SHIP discount. Most UC providers are in the Anthem Blue Cross network, but check to verify network status before your appointment. Be aware, you must use an In-Network doctor or hospital, except for emergency services. Plans use the term In-Network, <u>preferred</u> , or participating for <u>providers</u> in their <u>network</u> . See the chart starting on page 3 for how this plan pays different kinds of <u>providers</u> . See the Benefit Booklet “Definitions” section for more information.
Do I need a referral to see a <u>specialist</u> ?	No.	This plan will pay some or all of the costs to see a <u>specialist</u> for covered services, but only if you are treated by a participating provider.
Are there services this plan doesn’t cover?	Yes.	Some of the services this plan doesn’t cover are listed on page 8. See your Benefit Booklet for additional information about <b>excluded services</b> .

- **Copayments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percentage of the **allowed amount** for the service. For example, if the plan’s **allowed amount** for an overnight hospital stay is \$1,000, your **coinsurance** payment of 20% would be \$200. This may change if you haven’t met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount** determined by Anthem Blue Cross.
- This plan requires you to use an **In-Network Provider** or **“Other health care provider”** as defined in the Benefit Booklet. These providers have a contractual agreement with Anthem Blue Cross.

## About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

**This is  
not a cost  
estimator.**

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

## Questions and answers about the Coverage Examples:

### What are some of the assumptions behind the Coverage Examples?

- Costs don't include premiums.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from In-Network providers. If the patient had received care from out-of-network providers, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how deductibles, copayments, and coinsurance can add up. It

also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

### Does the Coverage Example predict my own care needs?

- ✗ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

### Does the Coverage Example predict my future expenses?

- ✗ **No.** Coverage Examples are not cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your providers charge, and the reimbursement your health plan allows.

### Can I use Coverage Examples to compare plans?

- ✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

### Are there other costs I should consider when comparing plans?

- ✓ **Yes.** An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as copayments, deductibles, and coinsurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
