

# Welcome to your new prescription benefit manager, Catamaran!

Catamaran is the new pharmacy benefit administrator for UC SHIP for the 2015-16 plan year.

### Organize your medications with your personal website

Included with your pharmacy benefit plan is free access to a private and secure website that you can access with your UC Student ID number. Compare drug prices, map your way to the nearest network pharmacy, organize your health history and more.

#### If you need a prescription filled

To get a prescription filled at the lowest UC SHIP copay, take your prescription to your SHS pharmacy or to a Catamaran network pharmacy, including those in the UC medical centers, and present your Anthem Blue Cross ID card. The amount you pay for a covered prescription—your copay—will be determined by whether the drug is a generic, brand-name formulary or brand-name non-formulary medication. Catamaran's pharmacy network includes over 68,000 pharmacies nationwide. Most national chains and many local pharmacies are included.

### Home delivery for long-term medications

Catamaran Home Delivery provides another option to receive your long-term or maintenance medications by mail. You can have your medicine delivered to your home. Our Home Delivery pharmacies are staffed with pharmacists who can answer your questions or speak to your doctor if needed.

## Good health in the palm of your hand

The free mobile app allows you to access the great features of your personal website on-the-go. With your website login, you can use your smart phone to find a nearby pharmacy, compare medication prices, review drug information and more.

#### Help is just a phone call away

We are here to assist you day and night! Call member services at (844) 265-1879.
